

Every donation making healthcare better

16th July 2024

To whom it may concern

Marylyn Thomas and members of Dinas Powys WI have approached Cardiff & Vale Health Charity with a view to raising money for our Breast Centre Appeal by producing a Dinas Powys WI Calendar for 2025.

All proceeds from this calendar will be directly supporting the Breast Centre Appeal which is one of the main Appeals of Cardiff & Vale Health Charity, the official charity of Cardiff and Vale University Health Board. The Breast Centre is located at University Hospital Llandough.

Any sponsorship provided to support this project, will enable even more money to be raised for our breast cancer patients.

On behalf of Marylyn and the Dinas Powys WI group, and us here at the Breast Centre Appeal, thank you so much for your support.

Kind regards

Good morning Marylyn

It was lovely to meet you yesterday.

So, here is a bit of info about what you could be fundraising for:

The Breast Centre Appeal is one of the main appeals of Cardiff & Vale Health Charity, the official Charity of Cardiff and Vale University Health Board. The Breast Centre Appeal directly supports The Breast Centre at University Hospital Llandough, which treats all patients with breast problems under one roof.

The centre of excellence opened in October 2010, providing essential diagnostic services and outpatient appointments for almost 4,000 people a year. Celebrating its 15th Anniversary next year, the Breast Centre Appeal raised the money to build the Centre, and ongoing donations to our Breast Centre Appeal directly impact the support we can provide to patients, including:

- A state-of-the-art gym on the first floor of the Breast Centre
- State-of-the-art equipment such as scanning and mammogram kit and hand held ultrasound for use during surgery
- A Senior Physiotherapist to provide our exercise prescription services offering pre-hab and re-hab to all.
- Outsourcing swimming sessions and group fitness classes available to anyone that has gone through/is going through breast cancer treatment.
- Complimentary therapies and provision of specialist undergarments for post-operative patients.
