

Item 61f)

County Councillors' Report to November Community Council meeting

Storm Claudia:

Well done to the members of the public and to community councillors who walked the streets on Friday checking on residents during the heavy rain. We do not think any houses were flooded internally. We should write to the Vale Council asking what help they can issue in the event of future events.

Murch Play Area:

The Vale has promised to clean up the state of the popular play area. The surface has been holding water and there a great deal of slime gathering.

Puffin Crossing:

The Vale is installing a Puffing Crossing along the A4055, Barry Road at the entrance to Parc Bryn y Don.

Water main problems:

The substantial disruption caused by the burst water main appears to have abated. Work is continuing to reconstruct the steps at St Davids Avenue. Apparently the main serves a substantial number of properties and the repair work was an expensive operation for Dwr Cymru.
