

TREE SURVEY 2025				
Concerns to consider				
Lee Hall Garden	T4	Norway Maple	Very large tree - query roots causing a problem with buildings?	
Lee Hall Garden		Sycamore	Not sure if this tree is covered in the document - it is the very tall sycamore in the far right hand corner which has been previously felled with more than one trunk - Dave Rogers thinks there is a TPO on this. We have received calls from the Scout Field (which the tree overhangs).	
Scout Field	T3	Horse Chestnut	appears to be dying (looks as if someone has tried to damage the tree at some point). Would like advice	
Tree Works completed/scheduled since last tree survey				
Mill Field	T2	Cherry	Tree works as per consultancy	Aug-24
	T3 or T5	Sycamore	Tree works as per consultancy	Aug-24
	G1	Ash	Tree works as per consultancy	Aug-24
